President's Corner By Bill Inglis

Dear FCAers,

Well, your President has been a busy guy this last month along with three other Club members. I flew to the Cavallino Classic in West Palm Beach, Florida January 24, 2003. The purpose was to take a look at the quality of the cars at the Ferrari Concours held at the Breakers Hotel. The quality of the cars appeared to be of Pebble Beach quality and were limited to about 120 entrants. The grounds of the Breakers Hotel is a Golf Course and the Concours takes part on the course which is not unlike Pebble Beach in Monterey.

Wally Clark's article in this Sempre Ferrari details the Cavallino event. My impression of the Breakers Hotel is that it is a must see for anyone visiting South Florida. We were sitting in a dining room eating breakfast one morning, looking up at Flying Buttresses 50 feet above our heads, truly a monument to architecture and beauty. It was like eating in Westminster Abbey. We flew into Ft. Lauderdale and drove up Highway 1A, which on one side is the Atlantic Ocean and on the other side are private homes. We drove for hour solid on this 2-lane highway and never saw a home under 5,000 square feet and many of them in excess of 15,000 to 20,000 square feet. The wealth in America is truly staggering when you visit an area like this, especially when you consider that these homes are second homes and not places of primary residence for the wealthy owners.

On March 1st, I flew to Orlando, Florida for the Ferrari Club of America National Board Meeting. It was a very good meeting and all 16 regions in attendance. A number of items were discussed, one of which being that would the Southwest Region like to host another annual meeting in the year 2011. Another topic of discussion was the national membership survey being completed. It is very interesting that this survey, on a national basis, mirrors almost exactly what is happening here in Southern California. The Indianapolis Formula One Race in September has already sold 400 tickets, and I think it will be a much less attended event, but the event will

The FCA Southwest Region tunes up at Gallery Ferrari's Tech Session.

Gallery Ferrari Tech Session

Article by William G. Inglis, photos by Wally Clark

On Saturday, February 15, 2003, a group of us from the Ferrari Club of America, Southwest Region met at the Service Center for Gallery Ferrari in Woodland Hills. With the cold weather and cloudy skies, only half of the 31 respondents showed up. The loss was theirs. We really had a great time.

First, there was a sit-down discussion on what services are performed on Ferraris and then, with no holds barred, Alan Johnson, the service manager, answered in detail any questions asked. The whole point of this discussion was to point out the fact that Gallery Ferrari has been a major sponsor for our Club and they wanted a forum to show their expertise on servicing our cars. I think, after that day it was understood by all present that Gallery means business, and they intend to make friends out of our Club members by providing great service at competitive prices.

We really had fun driving a Masarati Spyder, as well as turns in a racing car simulator that was brought in for our entertainment. It is an amazing device in the fact that they put up a screen in front of you and your sitting in a little cockpit with paddle shifts, you feel just like Michael Schumacher. They actually provide videos of all the tracks. In other words, you start in the garage at Monza, leave the pits and continue on, like you are driving in a race. The sound goes with it and when you go through the tunnel at Monaco, it escalates into an absolute roar. It was really a lot of fun. It was hard to keep on the road because we kept flying off into the barriers, and the simulator would show how we went upside down. It was frightening, but secure to know we were only in a simulator. The next time we have a Tech Session at Gallery Ferrari, I'm sure you'll want to attend, because the people that were there really had a great time and a great Italian lunch was provided by Tony Schwartz & Harry Gray, the gracious owners of Gallery Ferrari.

The Ortega Run

February 23, 2003

Article by Tex K. Otto, photos by Wally Clark

Many of the participants of the Ortega Run had already racked up a good share of highway miles to get to the start of this fun annual FCASW event. It seems no amount of time or distance would prevent drivers looking for a challenging drive and great lunch to join the entourage of Ferraris on this bright Sunday morning near San Juan Capistrano.

From 250 GTs to 575s, nearly every model of prancing horse was prepared to carve their way on California highway 74. The residential neighborhood which serves as our meeting place soon became infiltrated by a sea of luminescent Ferraris. Watching families drive through the streets was entertaining as they thread their way home among our group's parked cars and strolling drivers and navigators. The parents seem perplexed with the "car people" activity and the kids in the back seat wanted to stop and look at the cars.

Event organizer, Tom Brockmiller made the call to start the run and helps merge our group into the traffic flow. While taking care to avoid oncoming café racers who many times gave our group the "thumbs up," the road offers a range of open space touring as well as tight switchbacks to check on driver's dexterity. The elevation changes experienced on the drive are dramatically apparent upon cresting the mountains approaching Lake Elsinore.

We neared our luncheon destination at Thornton Winery in Temecula with our car fuel tanks running about half full and our tummys on running empty. A full buffet awaited our arrival with salad a choice of main courses and side dishes topped off with desert. Don and Sally West made sure that everyone's meal was accounted for and the Thornton Winery staff were very hospitable in their serving beverages and our lunch.

Thanks to Tom and Linda Brockmiller for organizing another great event and all those who helped put on the event. Thanks also to Thornton Winery for their reception of the FCA Southwest Region.

F2003-GA new Ferrari F1 racer

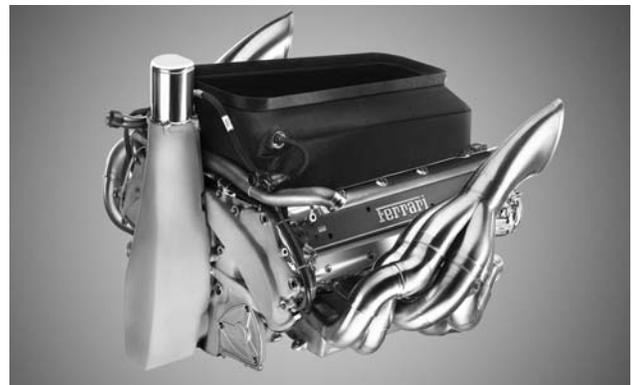

Article and photos provided by Ferrari SpA

The chassis is new, both in terms of design and construction saving weight and improving structure over the previous F2002 chassis. The bodywork, radiators, exhausts and the rear end have been redesigned, leading to a further increase in aerodynamic performance. The mechanically operated power steering is also a new design. The front and rear suspension elements have been revised, to maximise the performance of the Bridgestone tires and to improve the efficiency of the aerodynamic package. New materials have been introduced to reduce the weight and size of the engine and transmission. Like its predecessor, the new 052 engine is load-bearing and is mounted longitudinally. As usual, Shell made a significant contribution to the evolution of the 052, both in terms of fuels and lubricants, to ensure maximum performance and reliability.

While maintaining the same position and longitudinal mounting, the gearbox is completely a new design, achieving both a reduction in dimensions and weight. The gearbox is cast in titanium with seven speeds (plus reverse) and is electro-hydraulically operated with a sequential shift.

In keeping with a trend initiated by Ferrari and now almost universally adopted in F1, the car is fitted with a high level exhaust system, the same layout as seen on the F2002.

The car's center of gravity is lower than that of its predecessor, producing a further improvement in weight distribution for both chassis and engine. Ferrari believes that with the F2003-GA we have taken a further step forward maximising the performance of innovative materials and design whilst utilising advanced quality control techniques and philosophies to ensure safety and reliability. **SF**

Palm Springs Weekend

R I D E A N D D R I V E

April 5-6, 2003 Saturday - Sunday

We will meet Saturday at 10 A.M. at the Palm Springs Air Museum, where we will view 22 flyable World War II planes. We will provide a light lunch afterwards at 11:30 -1 P.M.

The Hyatt Hotel in Palm Springs is our host for our relaxing weekend.

There will be a reserved covered parking area for our Ferraris. Our rooms will be available for check in at 3 P.M.

Saturday afternoon, the city is hosting "The Palm Springs Car Classic" a downtown custom car and hot rod parade showing 400 classic, exotic, antique hotrods and motorcycles. Also in town for the weekend will be Spectrum Classic Car Auction on Friday evening continuing all day Saturday and Sunday.

Our dinner will be at the Hyatt Hotel at 7:30 P.M. with a reception and NO HOST BAR that opens at 7 P.M. **After dinner, we have a DJ for dancing into the night.**

Sunday, our club has been invited to the Concours d'Elegance at the scenic O'Donnell Golf Course at the base of Mt. San Jacinto, directly behind the hotel. We are requested to have our cars on the lawn by 8:30 A.M. Concours organizer Stan Zahn guarantees we will be finished by 3 P.M.

Sunday, we have planned to visit the Robert Pond classic car collection in Palm Desert. Buses will pick us up at 10:30 A.M. for our tour between 11 A.M. to 1 P.M. Buses will return us back to the Hyatt Hotel after our tour. Our tour was originally planned for Saturday.

Cost per couple for this relaxing weekend is only \$410.00, \$360.00 for singles.

Includes hotel accommodations, air museum, car exhibit admission, lunch, Saturday evening dinner and entertainment for your dancing pleasure.

Deadline for sign up is March 21, 2003. Additional information will be sent out to registrants approximately two weeks before the event.

SPECIAL EVENT

The Croul Collection

NEWPORT BEACH

Sunday, April 27, 2003 12 noon to 4 p.m.

Register for this collection by April 22, 2003.

Jack Croul has graciously agreed to open his private collection to members of the Ferrari Club of America. Over 40 cars are on display in a pristine museum-like setting. Jack has been an active participant in the Historic Mille Miglia, Goodwood Historic Races and the Monterey Historics as well as rallies in Europe, North Africa and China. His photos and memorabilia from these events are on display.

The collection favors sports cars with competition histories made by Ferrari, Alfa Romeo, Maserati, Porsche, Siata, BMW, Gurney, Zagato, etc., etc.

American cars are represented with some rare and original 1920's and '30s Fords. You will see cars from a turn of the century British steamer to a Benneton Formula One.

This is a rare opportunity indeed -- mark the date on your calendar.

Food: Sandwiches and soft drinks will be served from 1 PM to 2:30 PM.

Cost: \$15 per person. Please prepay by April 22nd.

Directions to Event: Take the 405 to the 55 Fwy into Costa Mesa. Proceed to 17th Street. Turn right and proceed 3 long blocks to Placentia. Turn left on Placentia and head towards the ocean to 1577 Placentia, Newport Beach. It's a blue building on the west side of the street. (Look for the FCA Banner). Park in the paved parking lot directly across the street.

FERRARI CLUB OF AMERICA: SEBRING 2003

INTERNATIONAL MEET CELEBRATING FERRARI'S VICTORIES AT SEBRING

APRIL 1-6, 2003

HOST HOTELS / CHATEAU ELAN AND INN-ON-THE-LAKES

Situated directly adjacent to the famous Sebring Hairpin, the Chateau Elan offers 81 rooms within the sounds and aromas of the track. The newly renovated Inn-on-the-Lakes has traditionally housed all of the racing greats-and they have pictures of them and their cars everywhere to prove it. Both hotels will offer their best southern hospitality to you and your Ferrari. Rates are \$109 per night at the Chateau and \$59 to \$79 per night at the Inn. However, they will not accept reservations without a Hotel Reservation Code Number (SEE IMPORTANT NOTES AT THE BOTTOM OF FORM 1).

MERCATO / TUESDAY THRU SATURDAY APRIL 1 - 5

Ferrari related memorabilia market place featuring the latest in Ferrari merchandise. Also on display will be fine art, jewelry, photography and those hard to find parts for your Ferrari.

PRE-CONCOURS SEMINAR / TUESDAY, APRIL 1

CONCOURS / WEDNESDAY, APRIL 2

See the finest Ferraris in all the land. Ferraris of yesteryear and today in all of their finery await the scrutiny of the expert panel of judges. Come and see the spectacular drivable art. Better yet, join the fun. Start now to prepare your Ferrari for the FCA Concours. It will be a rewarding experience you will never forget!

CRACKER TRAIL RALLY / THURSDAY, APRIL 3

The Cracker Trail Rally, presented by Ferrari of Atlanta, has been designed to give the participants insight into the history of our great state, long before the theme park era. A portion of the route will include the historic Florida Cracker Trail. Designated by the Florida Legislature as a historic trail, this route will provide you with views of vast cattle ranches, the finest citrus groves in the world, and some of the most picturesque scenery in all of Florida.

SEBRING INTERNATIONAL SPEEDWAY / THURSDAY THRU SATURDAY, APRIL 3 - 5

There is no other track in the country with the history of Sebring. All of the racing greats have graced this challenging and rewarding circuit. Now you, too, can get the ecstatic feeling of piloting your own Ferrari around those same turns. Don Panoz has spent \$12 million completely renovating the facility and it shows-everything from new pit garages to covered, upper level chair back seating. Maybe best of all are the squeaky-clean restroom facilities. With only three driving groups, you will get all the track time you can handle.

DRIVER'S SCHOOL / THURSDAY, APRIL 3

Improve your skill, confidence and safety with a full day's lesson from a staff of highly competent and experienced instructors. You will see a marked improvement in your driving and receive a diploma suitable for framing at the end of the day.

COPPA BELLA MACCHINA / THURSDAY, APRIL 3

Concours entrants who are scored 95 points or better may enter this competition of a rigorous 2-hour pass or fail examination to see that everything on your Ferrari works exactly as it did when it left the factory.

COPPA GT COMPETITION / FRIDAY, APRIL 4

Track evaluation test for applicants who achieve 95 points or better in the Concours and receive 100% in the Coppa Bella Macchina competition.

DISNEY WORLD TOUR / FRIDAY AND SATURDAY, APRIL 4 AND 5

Take the kids on a motor coach ride to the world famous Disney World theme parks. The Magic Kingdom, Epcot and several other Disney theme parks are easily accessible on this tour. Space is limited to the first 45 to sign up for each day. Due to the wide variation in package pricing for adults and children, entrance fees are not included with this tour.

This may not be a very popular male viewpoint, but I think all would benefit from getting more women to drive Ferraris. Yes men, it is better to give than to receive.

After the recent Ortega Highway Run, a few fellow participants recognized my girlfriend Tambi as “the blonde driving the Ferrari!” I’ve heard this comment time after time at various events in reference to the woman who with the thrust of her high heel makes the Tubi on her 355 Spider F1 enthusiastically roar to life, much to the dismay of many men drivers. Tambi was the only female driver during this and many other driving events. I find this unfortunate and have often wondered why?

For those women who do drive Ferraris, it would be great to have your attendance at more events, to encourage other women to get behind the wheel of the family Ferrari(s).

Obviously there are women who have no interest in the driving of the cars at the events and simply want to enjoy the ride and the social aspect. While that is enjoyable as well, I am speaking of the women who might like to be a driver instead of always the navigator.

With modern cars including Ferraris being easier to drive with their semi-automatic F1 transmission, power steering and a fully adjustable seating positions, why are Ferraris primarily the exclusive domain of the male? If men want to be able to attend more car and Ferrari events, would it not make sense to include our significant others to join in on the fun, including the sharing of the driving. A couple can share the rewarding experience of each being behind the wheel to make getting there and back a joint excursion. After all, many events are labeled “Ride and Drives.”

My role in this arrangement is opposite from the norm, as I am the male beneficiary of being the significant other and that Tambi has offered to let me drive her car. I’ve learned how to drive her car based on her experience with the car in general and the F1 transmission in particular. This included not only the inner workings of how to drive the car so that the onboard computer learns the driver’s operating characteristics, but ways to protect and maintain the car such as recognizing potentially harmful driveways, how to check the oil, the top folding procedure and etc. I like being able to help care for her car which makes our drives more enjoyable for both of us. It’s like having an extra Ferrari!

A man might find that his significant other would like to be more involved by co-driving their Ferrari. Go together to a driving school to both become confident behind the wheel of a performance vehicle.

Article and photos by Tex K. Otto

Then let her become familiar with your car. Face it fellas, handling of a performance car isn’t gender specific. Regardless of the vintage of your car, manual shift or F1 transmission, remember, there was a time when you had never driven a Ferrari before either.

It’s pretty hot to see the movement of a stiletto strapped female ankle punch the throttle to accelerate, while her polished nails grab for the next gear. You will both appreciate the rewards of co-driving your Ferrari. **SF**

Don’t be the guy on the side of the road in the Survival Insurance commercial who won’t ride in the Ferrari driven by the woman. Go ahead, take that ride.

Mineral Springs Getaway

Saturday - Sunday, May 24 - 25, 2003

In 1897 two men started drilling for oil in what is now called the Avila Valley. Instead of the oil they had anticipated, sulfur based mineral water sprang up. Naturally hot, this white sulfur spring water proved to have therapeutic effect and the "Oil Wells" (as Sycamore was then named) rapidly became a popular spa / resort and location for social gatherings in the San Luis Obispo County. During 1905 - 1907, the resort was called San Luis Hot Sulfur Springs. W.C. Fields visited here frequently, as did many others who stayed at Hearst Castle.

In the mid 30's people visited Sycamore Mineral Springs for mineral water treatments to "cure" their aches and pains, neuralgia, arthritis and other ailments.....

Join us for a weekend jaunt in your Ferrari through the back roads of California, with delightful stay-over in a hideaway mineral spa resort. We will explore the region in and around the Santa Ynez Valley.

In its quest to bring you a wide variety of motoring adventures, the Ferrari Club of America has uncovered smooth, quick roads and also true exclusive relaxation.

We'll take off early Saturday, to ensure we maximize our pleasure time at our destination - the hidden mineral spa resort. The challenging roads seem to have been paved for Ferrari, and will be a great test of your agility and endurance. As we round that last bend, a colorful regional restaurant hosts a lunch for everyone.

After lunch we'll continue for a short time through pastures and small towns, until we arrive at a tall-forested community. Nestled in the heart of the trees and flowers is our exclusive mineral spa resort, where every room has its own private balcony with a mineral spa. The club has also arranged for private and secured Ferrari parking.

Once all have settled into their private suites and enjoyed a relaxing walk around the grounds or a session in the hot tub, we'll gather for a pre-dinner, wine-tasting party, followed by a wonderful dinner, and a fun post dinner event.

In your free time, enjoy a relaxing massage by one of the many hotel masseuses, enjoy the communal redwood hot tubs nestled into the lush hillside or the heated swimming pool, and relax under the sycamore and oak trees.

On Sunday, the trip includes a return drive over equally beautiful country roads as well as brunch at an exclusive winery overlooking the Valley. The drive will be guided by one of our fellow members from the area through some of the most amazing roads you will ever see.

Our destination, which was part of an 1852 Spanish land grant, will take you back to the serene beauty of another era. This 37,000 acre ranch is the perfect place to take a driving break. Sit down, relax and listen to the wind and the crackle of the engines cooling down.

We hope you will join us for a weekend full of serious driving, fun and laughter with good friends.

Three packages are available. Each includes cocktail with appetizers and dinner at the resort on Saturday and brunch on Sunday. The only difference is the room selection. Some Luxury suites include a private garage, but these are limited to the first 5 sign ups since we only have 5 available. (Please specify if you want a garage).

The following prices are for two people:

Aluminum Pedals for your Ferrari

Have you ever had the desire to update the interior of your Ferrari but were worried about changing the way "Enzo intended it to be?"

If so one option may be to update the interior with an item that "Enzo intended," just not for your particular model Ferrari.

Specifically I'm talking about the pedals in your Ferrari. The latest creations from Ferrari have included aluminum drilled pedals for years, which in my opinion greatly enhances the interior of the Ferrari from multiple perspectives.

One perspective is looks. The pedals look great in the car as opposed to the ordinary rubber covers that originally came with the car.

Another perspective is functionality. The brake and clutch pedals have an anti slip surface finish which will enhance the grip between your foot and the pedal, even if the sole of your shoe is wet. Additionally, the aluminum gas pedal can be modified to include a short extension along the lower left corner to allow even a novice to heel/toe like a professional.

Stock Pedals

Ultimate Pedals

Drilling into the original pedals is required to securely fasten the aluminum pedals in place. Simply re-install the original rubber brake and clutch pedal covers to hide the 1/4" mounting holes, which leaves only the two 1/4" mounting holes in the gas pedal exposed.

In order to make this desire a reality you have a few options.

One option is to purchase a set of aluminum pedals from your local Ferrari dealer. Installation may require some modification, depending on which car the pedals were originally designed for and which car your

are installing them into.

Another option is to purchase an after-market set that is designed for your particular application. The benefits of this are you get a pedal that uses the same material and manufacturing methods, that requires no modification, and costs a fraction of the price for the factory original pedals.

Challenge Stradale

The new Ferrari, which will be unveiled at the Geneva Motorshow will be called the "Challenge Stradale." It joins the 360 Modena and the 360 Spider in the Ferrari 8 cylinder range of road cars.

The Challenge Stradale derives from the latest interpretation of the pure Ferrari tradition of making road cars directly derived from the race cars. With the Challenge Stradale, the racing expertise comes from the Ferrari Challenge International Championships and the FIA GT races, where the 360 Challenge and 360 GT models are top protagonists, both in Europe and in the United States.

The Ferrari Challenge Stradale's racing roots can be seen in the fact it is much lighter, thanks mainly to a stripped-out racing finish, as well as significant modifications to the aerodynamics, set-up, brakes and the use of an F1-style gearchange.

The engine is the 3,586cc V8, with five valves per cylinder and titanium connecting rods, which secured a worldwide success for the 360 Modena and the 360 Spider. The chassis and bodywork are made entirely from aluminium as designed and used by Ferrari in the 360 Modena.

The color of the car on the Ferrari stand in Geneva will be the new "Rosso Scuderia," the same red of the Formula 1 cars, with decorations recalling Ferraris used in customer races of the past.

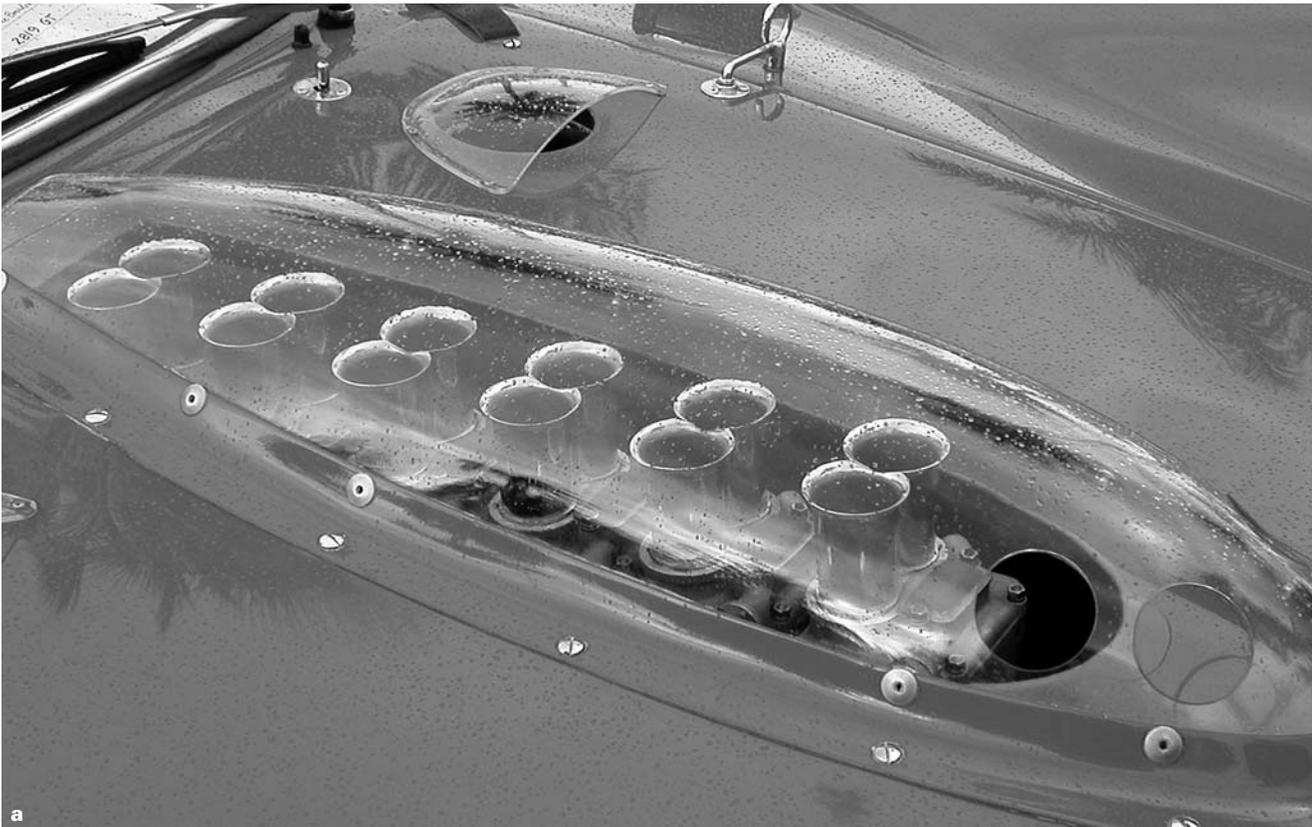

Ferrari Challenge Pirelli Trophy is a one make series for semi-professional and amateur racers. It was set up by Ferrari in 1993 to give Cavallino owners the chance to drive their Ferraris on the track, going up against other enthusiasts, in teams set up by various Ferrari dealers from around the world.

The first car to be used was the Ferrari 348, followed in 1995 by the F355. The 2000 season saw the 360 Modena Challenge make its debut, fitted with an 8 cylinder engine putting out over 400 horsepower. It ran alongside the F355. From 2002, only the 360 Challenge was eligible for the series.

The Ferrari Challenge Pirelli Trophy is divided into three international series – the Ferrari Challenge Italia, the Ferrari Challenge Europa and the Ferrari Challenge USA, with around 120 drivers taking part. Each season ends with the International Finals, which sees drivers and teams from all three championships come together to race. **SF**

The Challenge Stradale continues Ferrari's tradition of using it's racing experience to enhance their road cars.

Cavallino Classic XII

Concours, Ferraris and extravagance

Article and photos by Wally Clark

ROAD TRIP!! In late January, Marv Landon, Bill Inglis, Don West and I decided to take in the Cavallino Classic held at the Breakers Hotel in West Palm Beach, Florida.

Since none of us had ever been, it seemed like a nice overnighter. We left sunny Southern California at O'Dark Hundred on a Friday and arrived in cold Ft. Lauderdale in the afternoon. We rented a car for the one hour drive to Palm Beach and Don West was our navigator. He took us through the high rent district of Southern Florida, as we viewed mansion after mansion along both sides of the street. Once in the Palm Beach area we began to see Ferraris everywhere, and I even saw a Lancia Stratos tooling down the street! There must be more 360 Modena Spiders in Florida than anywhere else! After having a nice dinner in Palm Beach, we headed for bed and an early rise to go to the Breakers for the Saturday concours. It was about 48 degrees when

we got up to go to breakfast at the Breakers Hotel. What a place! This is an "old money" extravagant hotel and the place is magnificent. We got out to the front of the hotel as the Ferrari parking was beginning for the Concours.

AH - I love the sounds and smells of V-12's in the early morning! The Concours field was spectacular: rare race cars (196 Dino SP, 330 TRI LeMans winner, 335S spider, 250 GT Breadvan, a 312P coupe and a 412P, which is the customer 330P4), vintage GT cars (250MM, 330 GTO 64, several 340's and a gaggle of SWB's and TDF's) and a great selection of production cars (including a grand display of yellow 246 Dinos, 6 288 GTO's, 5 F50's) and of course, the unveiling of the Enzo with great pomp and circumstance as only Ferrari can do! There were also some very special cars displayed that have California roots - David Sydorick's 250 GT Zagato, Wayne Nelson's 410 SA (ex Shah car), Jeff Fishers 212 Vignale Spyder (which was restored by Tillack & Co.) and Dr. Ron Busitil's 250 GT TDF fresh from Pebble Beach. Jon Shirley showed for the first time a 500 Mondial Coupe (one of 2) that had been in storage for 47 years and was in the condition it last raced! What patina!

FCA judging criteria was used and there were many Platinum award winners. Best of Show (restored) went to Cisco CEO Larry Carter's 275GTS Nart Spyder (which was painted by Junior Conway) and Best of Show (unrestored) went to Chuck Wegner's 196 Dino Sp. It started to rain after lunch, so we left so we could catch our plane back to LA. We should do it again next year! **SF**

President's Corner By Bill Inglis continued from page 1

not incur the same losses as 2002. Another item on the membership was that you may renew your membership with the Ferrari Club of America either by phone or e-mail. A couple things that appeared to be of interest in the Ferrari Membership Survey is that people like mystery drives, whereby you arrive at a pre-determined place and only at that time do you either get a map or perhaps no map and just follow the car in front of you for a 50 to 70 mile drive to a restaurant where everybody pays separately for their lunch. It makes sense and maybe, it is something we should look into.

On the legal side, it is reported that we have to have a waiver signed on any kind of driving event. In other words, if we meet at a pre-conceived location and drive together to a restaurant or a venue of any type, we have to have waivers signed by not only the driver but also the passenger. One of the biggest discussions, which took over an 1 hour and a final vote, was regarding the Maserati relationship with of the Ferrari Club of America on a national level. There was a final passing vote of 14 to 10 which stated that any Maserati owners who joined the Ferrari Club of America would be able to participate in Ferrari Concours events in a separate area for display only. Maseratis would also be invited on the track at national events and would be able to run with Ferraris on the track at the same time. The amount of participation with Maserati owners at the Regional level would depend upon how the specific region felt about inviting Maseratis to their event.

Another interesting topic was that two separate regions have dealerships that are offering a free membership to the Ferrari Club of America with each Ferrari sold. It would be a big boost for our club membership in our region and we might discuss that openly with the dealerships here in Los Angeles in the near future. The payback for the dealership would be that they would get a free ad in the Club Newsletter the following month.

Paul Gilpatrick, the President of the Ferrari Club of America announced he is retiring from the position and has been replaced by Rick Race (yes, that's his real name). Also stepping down was Ed Gilbertson, who has been the Chief Judge for Ferrari Club of America for 20 years. He is being replaced by Chris Current, who will do an excellent job.

On the social side, we were invited to dinner on Saturday night at Ferrari of Central Florida in Orlando by the owner, Onofrio Triarsi. The showroom and the shop area were absolutely immaculate, but the highlight was an incredibly beautiful dinner setup in the showroom with probably the best Italian meal I've had in years. It was a wonderfully catered dinner by some extremely knowledgeable chefs and servants. I speak for all members of the National Board when I say that it was an absolutely wonderful evening. Of course, there were a number of other issues that we will be discussing at our local Board meeting in further detail. **SF**
